TRAININGS

JavaScript Basics Course

You Tube, Udemy, Online

Aug 2024 - Present

The JavaScript Basics Course offers a comprehensive introduction to one of the most essential programming languages for web development. Designed for beginners, this course covers fundamental concepts such as variables, data types, functions, loops, and event handling.

Bootstrap

Youtube , Internshala , Tech Gun , Apna College , Unacademy , Udemy, Online

May 2024 - May 2024

The Bootstrap Course provides a thorough introduction to Bootstrap, the popular front-end framework for creating responsive and visually appealing web designs. Tailored for developers and designers of all skill levels, this course covers key Bootstrap components, grid systems, and utility classes. Participants will learn how to leverage Bootstrap's pre-designed elements and customize them

to build modern, mobile-first websites efficiently. Through hands-on projects and practical examples

CSS Advanced Course

Youtube , Unacademy , Udemy , Tech Gun , Apna College, Online

Apr 2024 - Apr 2024

The CSS Advanced Course offers an in-depth introduction to Cascading Style Sheets (CSS), the language used to style and layout web pages. Aimed at beginners, this course covers essential topics including selectors, properties, the box model, responsive design, and layout techniques such as Flexbox and Grid. Through practical exercises and real-world examples, participants will gain the skills needed to enhance the visual appeal of web pages and create visually engaging, well-designed websites.

HTML

Unacademy , Code With Harry And Tech Gun, Online

Mar 2024 - Mar 2024

This comprehensive HTML Essentials Course provides a solid foundation in web development by teaching the core principles of HTML (HyperText Markup Language). The course covers fundamental topics such as HTML tags, attributes, document structure, and semantic elements.

PROJECTS

coffee website

Jul 2024 - Jul 2024

<https://github.com/payal-kashyap/coffee-website-template>

Developed a dynamic coffee-themed website designed to enhance user engagement and promote various coffee products. This project features an appealing, responsive design with interactive elements, including a product catalog, detailed coffee descriptions, user reviews. Utilizing HTML, CSS, and JavaScript, the website integrates smooth navigation, visually compelling layouts, and real-time functionality to provide an optimal browsing experience. The project effectively demonstrates skills in front-end development, user experience design, and e-commerce integration.

company website

Jul 2024 - Jul 2024

<https://github.com/payal-kashyap/company-template2>

Created a professional and visually engaging introduction website for a company, designed to effectively present the brand's identity, services, and mission. The website features a clean and intuitive layout, showcasing key company information, team profiles, service offerings, and contact details. Implemented using HTML, CSS, and JavaScript, the project emphasizes a polished design,

user-friendly navigation, and responsive functionality across devices.
